

ADJUDICATING – JUNIOR INTERCLUB

Procedures when another player is adjudicating.

The adjudicator is responsible for:-

- Calling and keeping the score.
- Calling all lets.
- Adjudicating when players cannot agree on a call.

Each Player is responsible for:-

- Calling the ball on their side of the net.
- Making their call
 - a) Instantaneously.
 - b) In a way that stops play and is obvious to the adjudicator and opposing player.
- Correcting themselves if they make a mistake in which case the point is awarded to their opponent.
- If a player is unsure of his / her call, the ball is to be called good.
- No call also means that the ball has been called good.

Querying Calls

- The adjudicator **ONLY** gets involved when there is a disputed call. If they see a wrong call during play they are to do nothing, and allow play to continue.
- A player can only question a line call on the opposite side of the net (i.e. cannot look to the adjudicator to confirm his / her own calls). Any questioning of a call is to be done instantaneously to the adjudicator.

Adjudicators Decisions

- **When asked** the adjudicator will immediately make a decision either confirming the call or overruling it.
- If overruling, the point is awarded against the player who makes the call.
- If the adjudicator is unsure or unsighted (blocked from viewing) the original call stands.
- The adjudicator's decision is final. All must accept the decision made.
- Teams may by **mutual agreement** have players fully adjudicate Junior Interclub Matches. Should there not be mutual agreement the Rules and Guidelines apply.
